## CAREFREE

### Natawa signs contracts

Natawa Corp. has signed contracts to provide engineering services to three housing developments in California.

The agreements for water and wastewater consulting are the first engineering services deals for Natawa, which also provides construction and financing for water, wastewater and fiber-optic utilities.

The contracts are with Fiesta Development, which is building 8,200 homes in Coachella, and Eagle Meadows Development, which is building 3,000 homes in North Edwards and another 3,000 near Wheatland.
